"THE WHITE STORE"

Edmonton of Tomorrow

THE PURPOSE of this article is to set out the reasons why any progressive and patriotic citizen of Edmonton should be interested in The Bulletin. There are two such reasons—perhaps three. But I will speak of the third reason in a subsequent article.

But I will speak of the third reason in a subsequent article.

One is the fact that the Preferred Shares of The Bulletin Publishing Company, Limited, will be a safe and reasonably profitable investment: This is because the shares are Preferred both in the assets and earnings of the company. In other words, before the Common Stock of the company must exceed all outstanding Preferred Shares. And before any dividends can be paid on the Common Stock a dividend's Ber cent, must be first paid on the Preferred Shares, after which the Preferred Shares, after which the Preferred Shares also participate equally with the Common Stock in all dividends paid above Ber cent.

But there is a better reason even than this, and that is the value of The Bulletin to this Community. If there were some way of estimating easily what the population and wealth of Alberta will be ten years hence, then the value of The Bulletin today might be appraised.

years hence, then the value of The Bulletin today might be appraised.

Everyone knows something of the increase in values and wealth in the past fifteen years in this province. And those who think, realize that Alberta is right now at the threshold of the greatest development the province has ever known. The door of Opportunity is open right now before the citizens of Alberta. And it is for the dominant citizens here to determine what shall be done about that Opportunity.

of Alberta. And it is for the dominant citizens here to determine what shall be done about that Opportunity.

In the next ten years that part of Alberta now occupied will be very greatly developed. Then there are the almost unbelievable opportunities of the great Peace River country, and the Empire almost still farther north. In addition to this there are the timber and mineral resources in this province that are as yet merely touched. In the next ten years towns—cities perhaps—will spring up that today do not exist even in name. The cities that are here, and particularly is this true of Edmonton, will experience a growth comparable only to what happened in the five or six years prior to 1913.

Alberta is a province of unmeasured wealth in resources and of undreamed of opportunities. And its development in the next five years is going to be not only because of its wonderful resources and opportunities, but also because of the world-wide unrest which is causing men everywhere to look for the lands of opportunity. And of these none have more to offer to the new citizen, whether farmer or business man, than has Alberta.

Well, whether or not Alberta avails itself of its opportunities depends on the action of the dominant citizens of today.

The time is at hand for some real constructive whiching on big lines. This is no day for crazy exploitation, booms, or visionary speculation. The agricultural, timber and mineral resources of this province are so immeasurably vast and so incalculably valuable that speculation or visionary exploitation in this country is nothing short of insanity. There is no such thing as transplanting the Fools Paradise of tradition to Alberta. We have no need for it.

There is no such thing as transplanting the "Fools' Paradise" of tradition to Alberta. We have no need for it

But what we do need is:

1. The Vision of What this Country may be;
2. A Program of Action;
3. Organized Public Opinion and Leadership;
4. And Co-operation.

All of this has been said before, of course, but the need saying often. And it means straight thinking, Initiative. Leadership and Action. Everyone knows this but what is anybody going to do about it?

I know that all this community needs is Community Organization. And I know also that Community Organization and I know also that Community Organization. And I know also that Community Organization which the support of the world which cannot consideration you.

2. Because, with a great crop coming on and the prosperity it will bring, this is the day of Action;

3. Because of world-wide unreat, now is the time when Alberta should propolam its resources to all the world;

4. Because never before has public opinion in this province and all this country needs is the reveille which will call the men possessing these qualities to the morning review of Edmonton are wd acy;

6. Because we have the Vision, the Ability, the Initiative all here, and all this country needs is the reveille which will call the men possessing these qualities to the morning review of Edmonton's new day;

6. Because we have the Vision, the Ability, the Initiative and Cooperative Action.

Now, the Greater Bulletin—and we are going to make a greater newspaper out of The Bulletin—is the means to Edmonton's need for competent leadership.

And finally, because the needs of this country can all be summed up under three heads—A Program, Leadership, and Cooperative Action.

Now, the Greater Bulletin—and we are going to make a greater newspaper out of The Bulletin—is the means to Edmonton's need for competent selfership;

And finally the smay very fully be said. Becoming a part of the biggest thing that is happening here just the province a program investment. It is being a part of the bigges

Wanted: A Winner

Business men may be roughly divided into two classes: Men who DO things and other men who TRY to do things and sometimes succeed.

A am building up an erganization here which will have a large part in the constructive undertaking of Edmonton. This organization is being made up of DOERS of things. I have no place for the man who can promise no more than to Try. In all the world there has never been set up a monument in honer of a man who Tried to do something.

1 now want a Salesman and here are the unlifications he must have:

1. A forceful personality.

2. Some acquaintance and prestige.

3. And the ability to get men to do a thing which for every good reason they should do.

It's New, NEW 610 2 Yards Navy Serge 54-inch \$1.49

Another big Ramsey Serge bargain—610½ yards of splendid, useful, all wool navy serge which is a much better quality than we have offered at this price since pre-war days.

The End of the "1000" Suit Sale BOYS' SUITS Bargains All \$7.50

Thus ends our famous "1000". Boys' Suit Sale. What values it did offer! What records it made. What precedents it smashed!

The last few suits are to go most cheaply of all—the ones which have been on sale at \$9.50 and \$13.00 (former \$18.00 to \$30.00 values). They say added at \$7.50.
